

Trading Instruments & Specifications

Full contract specifications across every market Farlo offers — spreads, swaps, leverage, contract sizes and trading hours. Published in the interest of full transparency on trading costs.

Specifications current as of 18 September 2026. All figures indicative and subject to change under market conditions.

Account Types

Standard (44 instruments) Commission-free trading with all costs in the spread. Standard lot sizing. Ideal for most traders.

Cent (32 instruments) Same conditions as Standard but with cent lot sizing (contract size $\div 100$) — lower capital at risk, ideal for beginners and strategy testing.

Pro (44 instruments) Institutional-grade raw spreads with a transparent commission of 7 USD per round lot on FX, Metals & Energies.

Notes & Definitions

Trading hours

All hours are shown in UTC+3 (server time). Markets follow a daily maintenance break and are closed over the weekend. Individual instrument hours are listed per symbol.

Spreads

Average spreads are shown in points and are indicative under normal market conditions. Spreads may widen during periods of low liquidity or high volatility, including around news events and market open/close.

Swaps (rollover)

Swap is applied to positions held overnight. Forex, Metals and Energies are charged in points; Indices and Cryptocurrencies as a percentage. Triple swap is applied on Wednesdays to account for the weekend.

Commission

Standard and Cent accounts are commission-free — all trading costs are contained in the spread. Pro accounts charge 7 USD per round lot on Forex, Metals and Energies; Indices and Cryptocurrencies remain commission-free on Pro.

Leverage

Maximum leverage varies by asset class — up to 1:1000 on Forex and Metals, 1:200 on Indices and Energies, and 1:20 on Cryptocurrencies. Applicable leverage may also depend on account balance and jurisdiction.

Contract size

Contract size defines the value of one standard lot. Cent accounts use a reduced contract size (×100 smaller) so that position sizing and risk are proportionally lower.

Risk Warning

Trading leveraged products such as CFDs carries a high level of risk to your capital and may not be suitable for all investors. You could lose more than your initial deposit. All specifications are indicative and subject to change in line with market conditions and Farlo Markets' trading terms. Please ensure you fully understand the risks involved and seek independent advice if necessary.
